Foreign trust Z was created for the benefit of United States persons D, E, and F. Under the terms of the trust instrument, the trust income is required to be divided into three equal shares. Each beneficiary's share of the income may either be accumulated for him or distributed to him in the discretion of the trustee. In 1970, the trust is to terminate and there is to be paid over to each beneficiary the accumulated income applicable to his share and one-third of the corpus. The corpus of trust Z is composed of 90 percent of the one class of stock in foreign corporation S. By the application of this section, each of D, E, and F is considered to own 30 percent ( 1/3 of 90 percent) of the stock in S Corporation.
