USP, a domestic corporation, and FP, a foreign corporation unrelated to USP, have owned 70% and 30% respectively, by vote and value, of the only class of stock of FS, a foreign corporation, from January 1, 2016, until December 31, 2017. USP and FS both have a calendar year taxable year. FS had no income until its taxable year ending December 31, 2016, in which it had 100u of income, all of which constituted subpart F income, and USP included 70u in income with respect to FS under section 951(a)(1) for such year. FS earned no income in 2017. Therefore, FS's post-1986 earnings and profits are 100u as of both E&P measurement dates.

Because USP included 70u in income with respect to FS under section 951(a)(1), 70u of such post-1986 earnings and profits would, if distributed, be excluded from the gross income of USP under section 959. Thus, FS's accumulated post-1986 deferred foreign income would be reduced by 70u pursuant to section 965(d)(2)(B) and Prop. Reg. 1.965-1(f)(7)(i)(B). Furthermore, under Prop. Reg. 1.965-1(f)(7)(i)(C), the accumulated post-1986 deferred foreign income of FS is reduced by amounts that would be excluded from the gross income of FP if FP were a United States shareholder, consistent with the principles of Revenue Ruling 82-16. Accordingly, FS's accumulated post-1986 deferred foreign income is reduced by the remaining 30u of the 100u of post-1986 earnings and profits to which USP's 70u of section 951(a)(1) income inclusions were attributable. As a result, FS's accumulated post-1986 deferred foreign income is 0u (100u minus 70u minus 30u).
