USCo is a corporation resident in the United States. USCo owns 100 percent of the shares of SCo, a company resident in Sweden. USCo operates a large research and development facility in the United States that licenses intellectual property to affiliates worldwide, including SCo. SCo and other USCo affiliates then manufacture and market the USCo-designed products in their respective markets. Because the activities conducted by SCo and USCo involve the same product lines, these activities are considered to form a part of the same trade or business.
